- **County and District report:** County Cllr R Filmer spoke about Development Training and Planning training, SDC are designing digital packages, and will then market to other Authorities. He said that all Committees were now in place post Election. BBC Panorama programme had recently highlighted Adult Social Care financial issues and constraints in the County and elsewhere, and lobbying would take place to fund nationally. District Cllr A Gilling is now heading the Housing Team and will be responsible for provision of new housing/homelessness.
- **Clerk Report:** Clerk has followed up request for information on village signs similar to that in Compton Bishop, she shared the information with the Council, and will continue to make enquiries with local firm. She mentioned that training on Rural Housing briefing has been cancelled. An Invitation to SCC Civic Service had been received for 5th October. A reply had been received regarding the enquiry about a Village Community area which was discussed previously, this now seemed unlikely at present.
